2 cm / 0,78 in

1,2 cm / 0,47 in

# Gobi Urban Matt

Urban, unpretentious, and chic. Like you, its style is wonderfully unique. The fine-grained structure with white and translucent fragments of quartz softens the gray integrity of Gobi Urban matt, lending to it a balanced, lightweight style ideally suited for the modern home. Tasteful, timeless elegance.

# Noble Concrete Grey

## Matt

Minimalist urban living demands materials that display both raw design and pure natural beauty. Noble Concrete Grey matt offers up the best of both worlds. Influenced by contemporary trends using concrete in inspired industrial and minimalist design, Noble Concrete Grey brings to your interior not only an impressive sense of fortitude, but also the proven properties of phenomenal longevity, resilience and beauty. Noble Concrete Grey has at once a gentle, yet raw contemporary soul.

# Ambiente Light

## Terra

Touches of sublime delicacy alternate with a rough surface, look and feel. Where a sense of the refined temporality of life itself meets the raw design, pure beauty and ultimate timelessness of quartz. Like a moment of beauty at once transient and permanent, the captured perfectionism of Ambiente Light is gentle in name, but unbreakable in essence.

# Residente Dark

## Terra

A design inspired by the forces of industry, the timelessness of great art and the unparalleled beauty of the purely practical, Residente Dark is like a fortress hidden in the raw material of the third millennium. The distinctive combination of dust gray with dark shades of cement and gravel leaves a lasting impression as deep and mysterious as the cosmos itself. Precise in its design, freed from unnecessary sentiment, the natural beauty of Residente Dark exhibits the power of a material liberated from the superficial.
